

Streamline your in-store payments experience with Westpac's Presto Smart

What is Presto?

Presto Smart is Westpac's new integrated payments solution which will remove the hassle of manually keying in transactions into your EFTPOS terminal to speed up sales at checkout.

What's different about Presto?

The Presto escalation team have access to a real-time monitoring dashboard. They can essentially remotely diagnose EFTPOS issues on the spot saving you time and effort, so you can continue to do what you do best, running your business. This unique feature ensures a more proactive support model as the team will receive alerts if there are terminal issues occurring as well.

How else will Presto benefit you?

1. Automatic 3G fallback on VX690 terminal ensuring a highly stable solution
2. Lightning-fast payments and simple reconciliation
3. Take payments at the counter-top or on the sales floor
4. Instant Settlement 365 days a year

Cut time on support calls and sign up to Presto today. [Click here](#) for a competitive, non-obligation quote!
