Fully Customisable Cash Register System

PosBrowser's Cash Register has been designed to serve customers quickly, while also having all of the features required by today's hospitality venues.

With the ability to serve customers with just one button touch, you can minimise lineups and keep customers happy.

Almost every aspect of the Cash Register is customisable to your needs. From colours to the buttons on the screen. Everything can be set to suit your business!

Fast and Detailed Menu System

Food and Coffee orders can become very detailed. With PosBrowser's menu system, staff will find it very easy to get the customer's order right, quickly! The menu system includes:

Menus and Sub-Menus, allowing you to easily group products
Pictures or Text, you choose what will be better for staff

Easily add extras (Sugar, Soy, etc). Extras can be set per item

Add custom notes to products for very specific orders

Colour-code each button, making it easier for staff to navigate

Seamless Customer Loyalty and Reward Tracking

Reward your customers like never before with PosBrowser's built-in Loyalty Programs. One VIP Card can manage many offers and promotions easily. The Loyalty Programs are designed to be easy to administer and minimal work at the Cash Register!

No more wasteful & time consuming punch cards! Simply scan the customers' Loyalty card and PosBrowser will keep track of how many coffee's they have purchased and give them a free one when required! Easy reporting on how many free drinks are given away allows you to manage the offer with ease!

Got a new blend of coffee? Easily find all of your loyal coffee drinkers and send them an email to let them know! You can even send a special discount voucher for them to come and try your great new coffee!

PosBrowser's Loyalty programs have had years of research, development and real-time usage. When we have analysed data from our customers, we have found that there are many successful types of loyalty rewards:

Inviting selected customers to a new-product launch
 Sending your customers a birthday voucher
 In-store promotions such as "Buy 6, get the 7th Free!"
 Sending your best customers a special discount voucher

A monthly Email, including specials to all customers
 Sending a voucher to all customers for a special event or day
 Alert customers when products they have previously purchased are on sale

Integrated Kitchen / Barista Screens and Printers

Easily track orders at the coffee machine or in the kitchen with PosBrowser's KitchenAid screen or receipt printer.

Dockets sent to KitchenAid can show the order, time, extras / notes, customer's name and more, allowing for fast and accurate service to your customers.

PosBrowser is designed for Windows 10. This means it runs seamlessly on a Windows Tablet PC, such as the Microsoft Surface range.

A Windows Tablet is a great option for a mobile cash register to serve customers at their table, or a portable stock take & ordering system. It is a truly multi-purpose device!

Multiple Payment Options

As well as traditional cash, PosBrowser gives you the flexibility to accept payments from a range of providers, including:

Reporting & Analysis

PosBrowser uses Seagate Crystal Reports - the powerhouse of data reporting! Optimised Crystal Reports help you retrieve the information you need in the blink of an eye!

The flexibility of PosBrowser and Crystal has enabled us to make hundreds of reports for our customers. Reports can be "drilled-down" to show even more information.

PosBrowser's unique Performance Dashboard allows you to see sales information from different time periods. This is the next generation of reporting, totally visual and easy to read!

Of the hundreds of reports in PosBrowser, here are some of the most popular:

This Month vs Last Month Sales
Top Selling Coffees or Cakes

Sales & Profitability for a Given Period
